TEXTBOOK

The text we will be using is *Elementary Analysis (Second Edition)*, by Kenneth Ross.

COURSE REQUIREMENTS AND GRADING

Homework, Assignments, Exams: We will have two in-class midterms and a final exam. Homework (including problem sets, reading and occasional short writing assignments) is assigned weekly. These will be posted on the course webpage by midnight on Tuesday and due at the *beginning* of class on the following Tuesday.

Late homework will *not be accepted under any circumstances*. If you are late to class on Tuesday, your homework is late and will not be graded. In case of extended illness, you must contact me as soon as possible.

You *should* be discussing homework together, but you *must* write up your own solutions. Plagiarism, copying (from classmates, notes, the internet, etc.) are not tolerated. No books, notes, or any electronic devices (including but not limited to calculators and phones) are allowed during the tests.

Final Exam: The final will cover all course material and is scheduled for Thursday, May 11, 8 am - 11 am.

Important Dates: These dates are tentative and are subject to change.

- *Deadline to drop this class:* February 17
- *Midterm 1:* February 21
- *Midterm 2:* March 21
- *Final Exam:* May 11, 8 am - 11 am

Grading Scheme: Your final grade will be computed as follows:

- Homework (drop lowest): 20%
- Midterm 1: 20%
- Midterm 2: 20%
- Final Exam: 40%

Your final exam score will override any lower midterm score. Other grading options may be introduced at my discretion.

CLASS POLICIES

Honour Code: All students are expected to act honourably and not cheat. Any evidence of cheating or other violations will be submitted directly to the appropriate authority. Cheating includes, but is not limited to: using an unapproved calculator, books, or any form of notes on tests or quizzes; copying directly from any source, including friends, classmates, tutors, or a solutions manual; allowing another person to copy your work; taking a test or quiz in someone else's name, or having someone else take a test or quiz in your name; or asking for a regrade of a paper that has been altered from its original form.

Attendance: You are expected to come prepared and actively participate in every lecture and recitation. In the event of an absence, you are responsible for all missed material, assignments, and any announcements made in class. Class disruptions of any kind will not be tolerated and may result in your removal from the classroom. Please respect all your classmates and instructor by coming to class on time, staying for the entire class period, refrain from talking with classmates, and turning off all laptops, phones, music devices, and all other electronic devices (unless I have given you permission to use a device for note-taking).

Regrading: If an error in grading has been made, you must submit a regrade request to me, along with the homework or midterm, within one week of the date it was returned in class. You may not change or add to your work. Check your answers with the posted solutions before submitting a regrade request.

Make-Ups: In extreme situations, I will allow a make-up for the midterm, provided that I am notified in advance and provided with a reasonable, written explanation of your absence. The make-up must be completed before the midterm has been graded and returned to the students. If you will miss the midterm due to a university sponsored event or athletics, you must provide me with the official documentation in advance.

Students in need of Special Accommodations: UC Berkeley complies with the regulations of the Americans with Disabilities Act of 1990 and offers accommodations to students with disabilities. If you are in need of classroom or testing accommodations, please make an appointment with the DSP office to discuss the appropriate procedures. More information is available on their website: <http://dsp.berkeley.edu>. Please also make an appointment with me to discuss your accommodation, if necessary, no later than one week into the semester.

Announcements: I will frequently update the class pages on my website with class information and new materials. You are responsible for making sure you are up to date with all this.

Additional Help: You are encouraged to work together with other students in the class, and make use of my office hours.

FINAL CAVEAT

Note that items on the syllabus are subject to change. Any changes will be relayed to the students in class and through e-mail.
